

TRAIN : Swiss Travel System

JOURNEY : Centovalli Train: Domodossola - Locarno (or vice versa)

Journey Duration : Scenic Day Trips

Itinerary:

Leaving Domodossola (Italy), you can take the Centovalli (i.e. "Hundred Valleys") Train to Locarno on Lake Maggiore. Don't forget to take a peek at the many sights along the way. For instance, you can see the pilgrims' church in Re (Italy) with its bleeding Madonna or get off in Verdasio and take the cable car to Rasa. Intragna is a center for cultural and adventure tourism. On one hand, you can find the highest church tower in all of Ticino, the Italian-speaking part of Switzerland, or you can go to the Outdoor Center for sports activities, such as bungee jumping from the train bridge. The landscape is just as diverse.
